$\color{red} \textbf{MODELL REGENSBURG 2} - \textbf{ONLY FRAME}$

Frame All around: Extruded aluminum profile 38 x 60 mm, L-shaped, all-round with additional retaining strip for slats Rung Extruded aluminum profile 32 x 17 mm, rectangular, with cover Infill Without infill, on request with drill holes for infill Processing Frame profiles are cut to miter, pressed in and stuck together by corner angles. Holding rail riveted to the frame. Coating of aluminium profiles prior to assembly. Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available Weight All around: Extruded aluminum profile 38 x 60 mm, L-shaped, all-round with additional retaining strip for slats for slats for slats for slats for infill Without infill, on request with drill holes for infill for infill for slats	egensburg 2	Facts and figures
Rung Extruded aluminum profile 32 x 17 mm, rectangular, with cover Infill Without infill, on request with drill holes for infill Processing Frame profiles are cut to miter, pressed in and stuck together by corner angles. Holding rail riveted to the frame. Coating of aluminium profiles prior to assembly. Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Sizes Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available		
Rung Extruded aluminum profile 32 x 17 mm, rectangular, with cover Infill Without infill, on request with drill holes for infill Processing Frame profiles are cut to miter, pressed in and stuck together by corner angles. Holding rail riveted to the frame. Coating of aluminium profiles prior to assembly. Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Sizes Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available	Frame	All around: Extruded aluminum profile 38 x 60 mm, L-shaped,
Infill Without infill, on request with drill holes for infill Processing Frame profiles are cut to miter, pressed in and stuck together by corner angles. Holding rail riveted to the frame. Coating of aluminium profiles prior to assembly. Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Sizes Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available		all-round with additional retaining strip for slats
Processing Frame profiles are cut to miter, pressed in and stuck together by corner angles. Holding rail riveted to the frame. Coating of aluminium profiles prior to assembly. Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available	Rung	Extruded aluminum profile 32 x 17 mm, rectangular, with cover
Coating of aluminium profiles prior to assembly. Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Sizes Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available	Infill	Without infill, on request with drill holes for infill
Surface Powdercoated, RAL standard, silk sheen; special colour tones and structures available Sizes Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available	Processing	Frame profiles are cut to miter, pressed in and stuck together by corner angles. Holding rail riveted to the frame.
Sizes Maximum width 2000 mm, maximum height 3000 mm Possibly not all widths and heights are available		Coating of aluminium profiles prior to assembly.
Possibly not all widths and heights are available	Surface	Powdercoated, RAL standard, silk sheen; special colour tones and structures available
·	Sizes	Maximum width 2000 mm, maximum height 3000 mm
Weight approx. 5 kg / m ²		Possibly not all widths and heights are available
	Weight	approx. 5 kg / m ²
